20th January, 2010

Dear Mike,

HETTON SWIMMING POOL

On behalf of the Leader and all Town Councillors may I congratulate you and your team for the management of the pool project, resulting in such a superb facility in the Hetton District. You will be aware that the building is already well used and popular with residents.

However, with the success, Town Councillors have been asked by users to highlight two issues which have been raised with them.

1. Many have expressed concern at the glass window running the length of the pool, which now gives pedestrians outside a clear view of swimmers and gives rise to child protection issues and lack of privacy.
2. The popularity of the facility has brought total indiscriminate parking directly outside the entrance in Welfare Road and Barnard Park. Residents have complained very strongly that this is causing great congestion and traffic safety issues.

I should be obliged if you could investigate these matters.

Regards
